

IOWA DEPARTMENT OF ECONOMIC DEVELOPMENT 12/31/05 End of Year Project Status Report Revised 06/19/06, 1:30 PM

June 19, 2006

Governor Thomas J. Vilsack Lt. Governor Sally Pederson Iowa Economic Development Board State Legislators **lowans**

Please accept this 12/31/05 Status Report on the Iowa Values Fund (IVF) and other state business development awards made from July 2003 through December 2005. During this period, 335 projects were acted upon by the Iowa Department of Economic Development (IDED) or one of its boards. Of those 335 projects, 196 had signed contracts during the reporting period -- thereby requiring those 196 to submit a report accompanied by verifying documentation. Note that there are various reasons no contract is in place, including ongoing negotiations and legal review.

IDED procedures call for semi-annual reports to track the progress of awarded projects. IDED's first self-report was issued October 2005 and represents projects awarded from July 2003 through June 2005. The first annual year-end report, accompanied by verifying documents, is now in. This is the point in the year where changes and updates are made to the project list in an effort to accurately reflect the landscape of the IDED portfolio of projects.

The status report shows that 59 percent of the jobs under contract are already in place and 75 percent of the capital investment has already been made. This is also the point in the year that we provide an update to program numbers acknowledging that some projects will not move forward, may not perform as anticipated or may be amended by the Department or through Board action. Project data has been evaluated and updated for consistency and accuracy. Following the executive summary, you'll find a complete project list broken down by these categories: Projects Under Contract; Projects in Contract Negotiation at the 12-31-05 Date; Projects too New to Report at the 12/31/05 Date; Awards Declined or in Collections; TSB and SELP Awards; and Awards Since 12/31/05 (not part of report).

The initial three years of the Iowa Values Fund has been tumultuous. IDED has adapted to legislative revisions and a court ruling that altered the IVF program. These events resulted in changes in the composition of the governing boards, funding sources, program job, wage, benefit and other eligibility requirements that impacted 11 of IDED's financial assistance programs.

(continued)

Even with an ever-changing program, I am pleased to report that we have accomplished a great deal. Business activity has increased and administrative procedures have been streamlined. Application evaluation, contracting and reporting is now done by project, not individual program, enhancing customer service and making administration easier for Iowa businesses. Semi-annual reporting, by project, has been instituted. We look forward to much future sucess with the current program and its 10-year committed funding stream.

It is still early in the lifespan of the funded projects listed in this End of Year Project Status Report. Each business has an established period of time within which it must complete its project; including job creation and retention, capital investment, and other goals. The duration depends on the governing, law, rule or contract terms at the time of award. Prior to the project completion date, business' typical activities involve constructing a building, hiring workers, and starting up a new production line or service.

IDED continues to be proud of the collective work we've done to administer programs enacted by Governor Vilsack and the Iowa Legislature; these programs are transforming lowa's economy. As this report is released for activities through the end of the prior year, the Iowa Values Fund and other business assistance programs continue to produce results. From July 1, 2003, through May 2006, IDED and its board have reported acting on a total of 389 projects that will create and retain over 26,240 jobs and result in capital investment of \$4.6 billion for lowa.

However, with this report, adjustments will be made to reflect the 24 projects declined or in collections and the 39 TSB/SELP projects that are non-job creation and capital investment programs, as well as the eight amendments that occured during this period.

Based on reporting and documentation provided, the annual reconciliation brings IDED's cumulative project totals to: 318 projects creating or retaining 24,365 jobs and resulting in a capital investment of \$4.4 billion.

On behalf of IDED staff, thank you for the opportunity to serve lowans in this regard.

Many Lawyer

Director

Executive Summary

Overview

During the period of July 1, 2003, through December 31, 2005, 335 projects were awarded assistance through the lowa Values Fund and other state business development programs. This year-end report was conducted to assess progress of companies receiving state assistance and to serve as an annual update to ensure available information is consistent and correct.

^{* -} No report required this cycle because contract is not in place.

Capital Investment and Jobs

75 percent of the capital investment pledged by the 196 projects under contract have been realized in Iowa for a total of \$1.6 billion invested. 59 percent or 8,013 of the jobs under contract have been realized.

Average Wages

The average wage of the incented jobs already in place is \$17.83 per hour, or \$37,086 annually – more than 14.8 percent higher than the state's per capita personal income (\$32,315).

Company and Community Size

Projects under contract have impacted communities all across the state and companies of all sizes. 57 percent of these projects have gone to companies employing 100 or less. Half of the projects are located in small communities (population under 10,000 people).

Keeping Pace

Of the 196 projects under contract, 93 percent, or 182, are classified as on-schedule or already completed.

n/a - Not applicable because the project is not proceeding, in collections, or is not a captital investment or job creation program

IDED Project Review to Project Closeout

The following flow chart represents the process in which a project moves from application through project closeout at IDED. At application, preparation and due diligence is conducted, as well as reporting and monitoring after contracts are in place.

1. Application Process

- Check eligibility requirements
- Calculate average wage and value of benefits
- Perform background checks
 - a. Violations with other state agencies
 - b. Legal filings, financial check
- Perform due diligence of financials
- Work with local communities for application assistance and local financial commitment
- Complete ROI summary
- Negotiate details of IDED incentives and collateral
- Start file and mark confidential portions

2. Board Action

- Prepare IDED Project Report (conf. DD)
- Prepare IDED Project Summary (Bd.)
- Work with DD Committee to finalize negotiations with projects
- Board Action
- News release to media

3. Transfer Award to Contracting Phase

- Contact company about award
- Organize and transfer file
- Prepare Exhibit D detailing job count and average wage agreement

Prepare Award for Contracting (BST)

- Send award letter within 10 days
- Draft contract for Contract Review Process within 3-4 weeks

Contract Review Process:

- 1. BST PM
- 2. BF PM
- 3. BF TL (Ken B.)
- 4. BST TL (Melanie J.)
- 5. DA Admin (Terry R.)
- 6. Director/Deputy Director
- Contract sent to business and community for sign-off, including sheet for fund disbursement conditions
 - File collateral positions
 - Department signs

4. Receive Funds(When conditions are met)

Monitoring

Reporting 2 times per year

- 1) Self-reporting (June)
- 2) Report with documentation (December)

On-site visit 1 time during life of the project

Project Completion

 Certify jobs, wages, benefits and investment

Maintenance period

- Certify jobs maintained

Contract Closeout

(After project completion and maintenance period)

Collections / Legal

If project is in default at any point, file referred to collections or legal for appropriate action.

The 12-31 Report Methodology

Business Services Team

On July 1, 2005, the Business Services Team (BST) was established within IDED. BST staff provides contractual, reimbursement, monitoring, reporting, relationship management and closeout services that support the state's financial assistance awards. The BST works with businesses to get project update reports two times a year. The June 30 report is a self-report and the December 31 report requires accompanying verification.

Process: End of Year Status Report

The BST notified businesses of the report requirement for the time period through December 31, 2005, and provided instructions for completing the End of Year Status Report. This report asks about the recipient's progress toward completing its project goals. Filing online was an option for the first time during this reporting cycle.

The report form collected information about job creation and retention, wages, benefits and any changes in the business (e.g., changes in the ownership, structure or control of the business; business name changes; any litigation or other violations of law that would adversely impact the project; changes in benefit plans).

A Job Creation and Retention Worksheet listing the created/retained jobs and payroll records were required to be submitted with the report. BST Project Managers verified job numbers stated in the report with the payroll records and information from the lowa Workforce Development Department. Project managers evaluated submitted reports, contracts and verifying documentation to assess project status.

Process: Annual Reconciliation

As part of the Semi-Annual reporting procedures, BST identifies any project information that needs to be edited or deleted in order to reconcile information on the consolidated End of Year Status Report with updated information about projects in the BST investment portfolio.

This annual update process recognizes that in any portfolio of funded projects there will be some that will not move forward or do not perform as anticipated. Project data also needs to be evaluated to ensure consistency and accuracy. The annual reconciliation adjustment is the time to update the portfolio list, correct any known errors and move projects to appropriate categories for further tracking.

This first End of Year Status Report breaks the list down by the following categories, including:

- Projects Under Contract
- Projects in Contract Negotiations at the 12/31/05 date
- Projects too New to Require a Report (Oct., Nov., Dec. '05)
- Awards Declined or in Collections
- TSB-SELP Awards (not job creation or capital investment programs)

End of Year Report Column Headings

Each project is separated into three categories – the time of award (*Investment Summary*), the time of contract (*Contract Numbers*) and the performace period (*Performance Numbers*).

Investment Summary

The information in this column is taken from the Monthly Investment Summaries. This section reports on information known as of the award date and includes details about: (1) the created and retained jobs meeting threshold eligibility requirements to qualify for assistance (the "incented jobs"); (2) the anticipated leveraged jobs (the "other jobs"). "Other jobs" are those jobs that do not meet program eligibility thresholds, but are jobs that the applicant has included in its application and indicated will also be created/retained if the project is funded and moves forward in lowa; these jobs would not exist if the project did not move forward; and (3) the anticipated capital investment.

Contract Numbers

The information in this column is taken from the signed contracts for the funded projects. Data may vary slightly from the Monthly Investment Summary numbers due to varying statutory or rule requirements, funding sources, contracting policies and board policies in effect at the time of contracting.

Performance Numbers

This section reflects the information reported by a business on its 12/31/05 End of Year Status Report and assessed by project managers utilizing submitted reports, contracts and verifying documentation. Job numbers are permitted to fluctuate from the time of contract to the Project Completion Date. At the completion date the business must have completed the project and met its job creation and retention obligations, and they must maintain the jobs through the required maintenance date.
